Four-day workshop for research scholars concludes at RGU

ITANAGAR, Feb 10: A four-day intensive workshop on “Computational Biology & Basics of Bioinformatics”, organized by Bioinformatics Centre (BIFC), Faculty of Life Sciences, Rajiv Gandhi University with support from the Department of Biotechnology, Government of India, New Delhi concluded today. Conducted for the research scholars of the Faculty of Life Science, the workshop was aimed at developing computational skills of data analysis under different research design protocols like observational and experimental ones. During the 32-hour of intensive learning, the research scholars were provided with skills on computational with software as well develop the theoretical concepts of statistical tools. The programme was unique in nature as it developed a strong background of the subject Statistics but “free” from mathematical complexity. During the workshop, lectures were delivered by Prof Gyan Prakash Singh, Department of Statistics, Institute of Science, Banaras Hindu University. The way of providing knowledge for data analysis to the research scholars were highly appreciated by the participants. Prof Saket Kushwaha, RGU vice chancellor while attending the valedictory function encouraged the participants to continue efforts for perfection in the field of research with utmost dedication. The VC gave away certificates to 24 trainees. Pro-VC Prof Amitava Mitra while appreciating the efforts and commitments of the expert and the learners emphasized on conducting more programmes in the days to come involving such relevant research variables. Registrar in-charge Dr David Pertin said that the university will go a step forward with increase in knowledge resource base through this workshop wherein a total of 24 participants were trained. He also suggested for training of the trainers so that the knowledge percolates down to others. Among others, Prof Gyan Prakash Singh, Prof R K Singh, Coordinator, BIF Centre and Dean of Life Sciences, Prof Sumpam Tangjang, Dean Students Welfare, Prof J Chakravorty, head, Dept of Zoology and Dr Pankaz Kumar, Coordinator of the workshop also spoke.
